

TEFROKA® PU-E COMFORT

Solvent-free, elastic polyurethane-system for outside areas onboard cruise liners, yachts etc. for sport decks, sun decks, jogging tracks, promenade decks etc.

Properties:

- one-layered, joint less on levelled decks
- excellent structureborne-/(impact) sound reduction
- seawatertight
- impermeable
- high tensile strength, high elongation, high spot load
- rubber-elastic
- high abrasion-resistance
- anti-slip
(acc. to BGR 181/DIN 51130: R10)
- decorative
- different colours / designs
- self-levelling

Technical Data:

Thickness:	2 - 15 mm *
Density (+ 20°C):	approx. 1,4 kg/ m ² / mm
Viscosity (+ 20 °C):	pasty
Potlife (+ 20 °C):	approx. 30 minutes
Shore-A-hardness:	approx. 65

Preparation of Substructure:

Solvent-free polyurethane systems,
f. e. TEFROKA® PU-E, TEFROKA® PU-1-L.
Other decks upon request.

* If applied in multiple coats higher thickness is possible

Issued: 18 October 2012, Revision 2.1
